

SUMMER MATH 2024

REQUIRED MATH REINFORCEMENT

Dear Parent of Rising 3rd Grader:

While we want our students to have an incredible summer, we also know that research reinforces what educators have long observed: that mastery of skills diminishes over the course of the summer months if those skills are not practiced. In an effort to enhance the retention of students' math skills through the summer and into the next school year, we ask your child to continue to practice math throughout the summer. Let's keep our kids sharp!

Participation in summer math is REQUIRED for all students in rising grades 3-8, including those new to the school for next year. Carefully read the instructions below. **Please note that all summer math work must be completed by Tuesday, August 6th**, and it will count as the student's first minor grade for the first quarter.

Summer Math Lessons Required for Rising 3rd Graders:

Zearn Mission 6: Lessons 1-20 (Topics A-D)

Please remember that students will need access to a tablet or computer (phones are not recommended) to complete online math lessons in Zearn. See below for important log in information. Please reach out to techsupport@olomschool.org if you have questions about these assignments over the summer.

To login to Zearn on a tablet:

1. Download the Clever app from your device.
2. Open the app and scan your unique QR code located at the bottom of this page. **Note that you can ONLY scan the code through the Clever app. It will not work with a regular QR code reader.*

To login to Zearn on a computer:

1. Visit www.clever.com and select "log in as a student."
2. Using the camera on your computer, scan your unique QR code located at the bottom of this page.
3. You can also search for our school. It is listed as "Our_Lady_of_Mercy, Our Lady of Mercy" Then enter your Google ID and password also located below.
