

2025-2026 OLOM Tutoring List

Please note, teachers and teacher assistants will not tutor their own students for pay. We have listed community tutors (page 2) as tutoring resources in the local area. OLOM does not endorse or promote any of these community tutors. It is the responsibility of the parents/guardians to contact, interview, and make sure the tutor is an appropriate match for their child. Please note that OLOM has not conducted any form of background check on individuals or companies within the “community tutor” section.
